Beaumont Bottle Depot 4903-51 street

Only the bags handed out by the Club will be accepted. Bags must be filled. Half bags will not be accepted. Families who do not fulfill their bottle bag commitment will be invoiced \$100. If you opted to fundraise and you did not receive your bags, please email the Club.

When you arrive, check in with a Club Executive or volunteer so your bottles can be accounted for.

If you cannot drop your bottles on March 7th, you have two options:

- 1) Ask a friend or family member to drop them off for you;
- 2) Keep the bottles and the Club will invoice you \$100

AGM

We will be having our annual General Meeting on March 5th at 7pm at the Community Centre. Anyone is welcome to attend, and we are always looking for new members to join. We look forward to seeing you there!

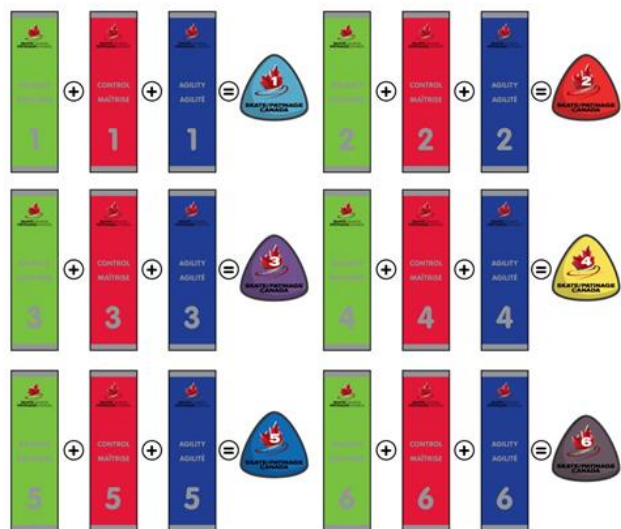

PRECAN AND CANSKATE:

Skate Tags and Stages

The colored pipe cleaner tags placed on your skater's skates do not indicate their level or ability. The tags are used simply to group the skaters. Skating skills along with age are taken into consideration when creating the skater groups. Evaluations are done weekly so movement into another group may occur at any time.

Skaters in PreCanSkate will receive a ribbon once they have completed all of the skills in their level.

Skaters in CanSkate will receive a Stage Badge once they have achieved all three of the fundamental movements in their Stage. The fundamental movements are: Balance (green), Agility (blue) and Control (red). If only one or two fundamental movements are achieved, skaters will receive a ribbon.

A complete series of balance, control and agility skills are taught in six stages of learning that pertain to hockey, ringette, speed skating and figure skating as well as general recreational skating. Nationally-tested and proven curriculum and delivery methods that guarantee skater success in developing stronger basic skills and developing them faster.

EQUIPMENT:

Please ensure your skater has the proper attire and equipment while on the ice:

- no fuzzy gloves, as they stick to the ice and create a hazard
- skates sharpened regularly
- no restrictive clothes such as tight pants or hockey gear
- helmets for PreCan, CanSkate, and IFS skaters
- skates that are fitted properly. Skates that are too big can make skating difficult
- molded or plastic skates do not provide the same support and control and can make learner to skate more difficult

FALL 2020 PROGRAM REGISTRATION

Registration for fall programming will open in August 2020. Check our website in the spring for exact dates and times.

No skating programs are offered during spring and summer due to the city shutting down the ice.
